Littleton, CO 80127   nick.bigger@gmail.com   Cell: +1 303 619-7039

PERSONAL PROFILE

I am an ambitious, ever-improving individual with a passion for technology and communication. My strengths include public speaking and leadership and my particular interest is in software engineering and UI/UX design. My real skill is in combining my technical talents with my creativity and ability to communicate; I believe this combination of skills uniquely positions me for success in a technical role.

Java, JavaScript, Python, Jade, SQL	**Tableau Qualified Associate**
MongoDB, Express, Angular, Node	**Oral and Written Communications**
UI/UX Design	**Data Visualization**

WORK EXPERIENCE

TABLEAU SOFTWARE, PC INTERN – Seattle, Washington, U.S.A.   *May 2017 – July 2017*
Learned and communicated the features, capabilities, and benefits of Tableau Software. Supported the Product Consulting team presales capacity and helped existing customers learn about the products by designing and delivering regular training sessions. Post-sales, partnered with the PC team to help people make breakthrough advances with analysis to ensure adoption of Tableau Software.

NVIZIBLE, SOFTWARE DEV INTERN – London, United Kingdom.   *June 2015 – July 2015*
Created a python program that analyzed a folder of video frames and ensured that each frame was in the correct order, the appropriate size, and not corrupt, missing pixels or blank. The program then packaged the film with a report on any anomalies and sent it to the client.

THE MELTING POT, HOST/GREETER – Littleton, Colorado, U.S.A.   *May 2014 – May 2015*
Organized guests' dining experience in a fast-paced, formal environment at the leading Melting Pot branch.
